Applicants respectfully request cancellation of the amendments made to the paragraph on page 18 in the reply dated February 8, 2002. The paragraph begins on line 10 of the clean version of the replacement specification and begins on line 21 of the marked up version of the replacement specification. Furthermore, Applicants respectfully request that the paragraph be amended as follows:

B3
In a currently preferred process of producing *Morinda Citrifolia* fruit juice, the fruit is either hand picked or picked by mechanical equipment. The fruit can be harvested when it is at least one inch (2-3 cm) and up to 12 inches (24-36 cm) in diameter. The fruit preferably has a color ranging from a dark green through a yellow-green up to a white color, and gradations of color in between. The fruit is thoroughly cleaned after harvesting and before any processing occurs.
